

2026 Idaho Permit Requirements Guide

Permit fees, review timelines, and requirements for Idaho's 10 most active building jurisdictions — from official sources.

How to read this guide

Confidence badges

Every figure carries a confidence label. “Verified” means PermitBase confirmed the figure directly against the jurisdiction’s current published source. “Reviewed” covers everything else — the same figure, a lighter verification pass. We never upgrade a label past what was actually checked.

Tiered fees

Where a jurisdiction charges by project valuation, this guide prints the base/starting tier from the published fee table and points at the source for the full schedule — never a computed total.

“Not published”

When a jurisdiction does not publish a plan-review timeline, this guide says so plainly — “Not published — contact the department” — rather than estimating one.

Idaho adopts a statewide baseline building code set under the Idaho Building Code Act (Idaho Code Title 39, Chapter 41) and IDAPA rules administered by the Idaho Division of Occupational and Professional Licenses (DOPL). Effective January 1, 2021, the statewide baseline includes the 2018 International Building Code (IBC), 2020 Idaho Residential Code (based on the 2018 IRC Parts I–III and IX with Idaho amendments), 2020 Idaho Energy Conservation Code (based on the 2018 IECC with Idaho amendments), 2018 International Existing Building Code (IEBC), 2018 International Mechanical Code (IMC), 2018 International Fuel Gas Code (IFGC), and 2018 International Fire Code (IFC). The National Electrical Code is adopted separately by the Idaho Electrical Board (IDAPA 24.39.10), not bundled with the building code: Idaho enforces the 2023 NEC, effective July 1, 2024 (the state used the 2017 NEC with amendments before that and skipped the 2020 edition). Local jurisdictions must enforce the state baseline and may adopt amendments only where those amendments are at least as stringent as the state-adopted editions; local amendments may not be less restrictive. Enforcement is local — each city or county issues permits and performs inspections. Always confirm the current adopted edition and any local amendments with your specific jurisdiction before submitting plans.

PermitBase is an independent reference and is not affiliated with any government agency. Requirements change and vary by project — confirm current details with the building department before you submit.

Idaho snapshot

78 Idaho jurisdictions covered — this guide features the 10 most active.

City	County	Annual units	Annual value
Nampa	Canyon County	1510	\$265,799k
Caldwell	Canyon County	1477	\$236,242k
Meridian	Ada County	1364	\$297,420k
Kuna	Ada County	1208	\$257,798k
Boise	Ada County	955	\$239,200k
Star	Ada County	881	\$287,512k
Idaho Falls	Bonneville County	710	\$128,398k
Eagle	Ada County	582	\$315,335k
Post Falls	Kootenai County	376	\$73,537k
Pocatello	Bannock County	301	\$29,080k

Source: U.S. Census Bureau, Building Permits Survey (BPS)

Nampa

Canyon County · Nampa Building Safety & Code Department

(208) 468-5435 · <https://www.cityofnampa.us/163/Building-Safety-Code> · 1510 permitted units/yr

Permit	Fee		Review timeline	Tip
Residential Building (New Construction)	\$22.20 base tier — full schedule at source	15–15 business days	Nampa's plan review target for new residential construction is 15 working days per the published Plan Review Processing Time Frames (Aug 2024).	
Residential Addition / Remodel	\$22.20 base tier — full schedule at source	10–10 business days	Nampa's plan review target for residential additions is 10 working days per the published Plan Review Processing Time Frames (Aug 2024).	
Electrical	\$180.00 per dwelling unit	3–7 business days	Nampa has adopted the 2023 National Electrical Code — ensure work meets NEC 2023 requirements.	
Plumbing	\$180.00 per dwelling unit	3–7 business days	Nampa uses the 2017 Idaho State Plumbing Code (based on the 2015 Uniform Plumbing Code) — not the International Plumbing Code.	
Mechanical / HVAC	\$180.00 per dwelling unit	3–7 business days	Nampa's local amendment requires unvented gas fireplaces to have a supplemental whole-house ventilation strategy (air-to-air heat exchanger or engineered system) — plan for this before installing an unvented gas fireplace.	
Roofing / Re-roof	\$22.20 base tier — full schedule at source	7–7 business days	Nampa's plan review target for residential re-roofs is 7 working days per the published Plan Review Processing Time Frames (Aug 2024).	
Solar PV	Per Exhibit A valuation table based on project value base tier — full schedule at source	10–10 business days	Nampa's plan review target for residential solar is 10 working days per the published Plan Review Processing Time Frames (Aug 2024).	

Good to know

- Always verify zoning with Planning & Zoning at (208) 468-4430 before designing or applying for a permit — zoning non-compliance discovered during review causes costly delays.
- Nampa uses the 2017 Idaho State Plumbing Code (based on the 2015 Uniform Plumbing Code), not the International Plumbing Code — fixture counts and fee structures differ from IPC jurisdictions.

Caldwell

Canyon County · City of Caldwell Department of Building Safety
(208) 455-3024 · <https://www.cityofcaldwell.org/Departments/Community-Development/Building-Safety-Division> · 1477 permitted units/yr

Permit	Fee	Review timeline	Tip
Residential Building (New Construction)	\$34.00 base tier — full schedule at source	7–10 business days	Caldwell's published plan review timeframe for one- and two-family residential is approximately 7–10 business days for the initial review (up to 5 additional business days may be added based on workload).
Residential Addition / Remodel	\$34.00 base tier — full schedule at source	7–10 business days	Fences only require a completed building permit application and minimal review — no full plan set required.
Electrical	\$160.00 per dwelling unit	3–7 business days	Caldwell uses the 2023 National Electrical Code — ensure all work meets NEC 2023 requirements.
Plumbing	\$160.00 per dwelling unit	3–7 business days	Caldwell uses the 2017 Idaho State Plumbing Code (based on the 2015 Uniform Plumbing Code), not the International Plumbing Code.
Mechanical / HVAC	\$160.00 per dwelling unit	3–7 business days	Furnace replacement costs \$34 base + \$15.75 per piece of mechanical equipment = \$49.75 for a mechanical permit.
Roofing / Re-roof	Not offered / not tracked for this city		
Solar PV	Based on total project value per Resolution No. 300-25 Table 1 base tier — full schedule at source	7–10 business days	Caldwell's dedicated PV Checklist must accompany all residential solar permit submittals.

Good to know

- Always verify zoning compatibility with Planning & Zoning Division before designing or applying for a permit — non-compliance discovered during review causes costly delays and delays the plan review clock.
- All commercial, multi-family, and residential subdivision permits must be submitted digitally through the Citizenserve online portal (citizenserve.com, installation ID 263) — paper submittals are not accepted for these categories.

Meridian

Ada County · Meridian Community Development — Building Services

(208) 887-2211 · <https://meridiancity.org/community-development/building/> · 1364 permitted units/yr

Permit	Fee	Review timeline	Tip
Residential Building (New Construction)	\$150 — full text at source	10–10 business days	Apply through the Citizen Access Portal at citizenportal.meridiancity.org — available 24/7. Plans are reviewed electronically through Project Dox.
Residential Addition / Remodel	\$50 — full text at source	5–10 business days	Apply through the Citizen Access Portal at citizenportal.meridiancity.org — available 24/7.
Electrical	\$120 — full text at source	1–10 business days	Idaho state law allows homeowners to pull their own electrical permit for their primary or secondary residence — no contractor license required for homeowner-performed work.
Plumbing	\$30 base tier — full schedule at source	1–10 business days	Idaho state law allows homeowners to perform plumbing work on their own primary or secondary residence without a contractor license.
Mechanical / HVAC	\$50 base fee	1–10 business days	Like-for-like furnace and A/C replacements require a mechanical permit in Meridian.
Roofing / Re-roof	Not offered / not tracked for this city		
Solar PV	\$40 base tier — full schedule at source	1–10 business days	Electrical plan review is required for all photovoltaic installations in Meridian — do not skip.

Good to know

- All permit applications in Meridian are submitted online 24/7 through the Citizen Access Portal (citizenportal.meridiancity.org). Plans are reviewed electronically through Project Dox (ePlan Review).
- Schedule inspections online through the Citizen Access Portal. For same-day scheduling, call the inspection line at (208) 887-1155 before 8:00 AM.

Kuna

Ada County · City of Kuna Building Department
(208) 922-5546 · <https://kunacity.id.gov/119/Building-Department> · 1208 permitted units/yr

Permit	Fee	Review timeline	Tip
Residential Building (New Construction)	\$70	10–30 business days	Inspection requests must be submitted prior to 4:00 PM to receive them the next business day; requests after 4 PM will not be scheduled for the following work day
Residential Addition / Remodel	Not offered / not tracked for this city		
Electrical	\$65	3–10 business days	Electrical permits are available at the City of Kuna Building Department
Plumbing	\$130	3–10 business days	Plumbing permits are available at the City of Kuna Building Department
Mechanical / HVAC	Not offered / not tracked for this city		
Roofing / Re-roof	Not offered / not tracked for this city		
Solar PV	Not offered / not tracked for this city		

Good to know

- Inspection requests must be submitted prior to 4:00 PM for next business day scheduling — requests received after 4 PM will not be scheduled for the following work day
- All plans, permit inspection record, and applicable calculations must be on-site for all inspections

Boise

Ada County · Boise Planning and Development Services — Building Division

(208) 608-7070 · <https://www.cityofboise.org/departments/planning-and-development-services/building/> · 955 permitted units/yr

Permit	Fee	Review timeline	Tip
Residential Building (New Construction)	\$26.37 base tier — 9–84 business full schedule at source	days	Boise offers both online (ePlanReview) and in-person plan submission; PDS recommends meeting a plan reviewer in person for complex projects.
Residential Addition / Remodel	\$26.37 base tier — 1–27 business full schedule at source	days	Boise PDS recommends homeowners meet with a plan reviewer in person to submit addition/alteration plans — appointments available.
Electrical	\$135 per dwelling unit	1–10 business days	Idaho state law allows homeowners to pull their own electrical permit for their primary or secondary residence — no contractor license required.
Plumbing	\$130 per dwelling unit	1–10 business days	Idaho state law allows homeowners to perform plumbing work on their own primary or secondary residence without a contractor license.
Mechanical / HVAC	\$130 per dwelling unit	1–10 business days	Gas piping work (including gas fireplace hookups) requires a Mechanical Permit in Boise — not a Plumbing Permit.
Roofing / Re-roof	Valuation-based per Table 1-A; residential plan review 20% of permit fee base tier — full schedule at source	1–8 business days	Roofing permits in Boise are processed under permit type 428 (Residential Roofing, Siding and Windows) — the same application covers all three.
Solar PV	\$165 flat fee	1–10 business days	Two separate permits are required in Boise for residential solar: a building permit (\$165 flat) for structural mounting and an electrical permit (\$110) for wiring.

Good to know

- Boise uses the 2017 Idaho State Plumbing Code (based on the 2015 Uniform Plumbing Code) — not the International Plumbing Code. Rules differ, especially for fixture counts and fees.
- Gas piping, boilers, hydronic heating, and solar thermal systems are Mechanical Permits (422) in Boise — not Plumbing Permits.

Star

Ada County · City of Star Building Department

208-286-7247 · <https://staridaho.org/1243/Building-Department> · 881 permitted units/yr

Permit	Fee	Review timeline	Tip
Residential Building (New Construction)	\$100.00	14–42 business days	Small residential projects review in 2–4 weeks; larger residential projects approximately 4–6 weeks. Each revision or correction cycle adds 3–4 weeks.
Residential Addition / Remodel	Not offered / not tracked for this city		
Electrical	\$130.00	1–1 business days	Electrical permits are issued same day if the associated building permit is already approved.
Plumbing	\$130.00	1–1 business days	Plumbing permits are issued same day if the associated building permit is already approved.
Mechanical / HVAC	Not offered / not tracked for this city		
Roofing / Re-roof	Not offered / not tracked for this city		
Solar PV	Not offered / not tracked for this city		

Good to know

- Star is a fast-growing small city in Ada County — the building department handles all building services directly (no county contract or third-party outsourcing observed).
- All permitting is fully online via the IWORQ Portal (staridpermit.portal.iworq.net); contractors must register before accessing the portal.

Idaho Falls

Bonneville County · City of Idaho Falls Building Division (Department of Community Development Services)

208-612-8270 · <https://www.idahofallsidaho.gov/269/Building> · 710 permitted units/yr

Permit	Fee		Review timeline	Tip
Residential Building (New Construction)	\$30.18 base tier — full schedule at source	10–10 business days	The City of Idaho Falls transitioned to Cityworks permitting software on April 1, 2024, replacing the prior eTrakit Online system. Applicants with a prior eTrakit account should set up a new Cityworks account using the same email address to link historical permits.	
Residential Addition / Remodel	\$30.18 base tier — full schedule at source	10–10 business days	A simple rule of thumb from the City: any detached structure (including sheds) over 120 sq ft that will house property, equipment, or people needs a building permit.	
Electrical	\$5.85 per each electrical service	Not published — contact the department	The City of Idaho Falls Building Division issues and inspects electrical permits directly through its own Chief Electrical Inspector — this is not handled by the Idaho DOPL Electrical Bureau within city limits.	
Plumbing	\$5.10 per installation	Not published — contact the department	The City of Idaho Falls Building Division issues and inspects plumbing permits directly — its own Chief Plumbing/Mechanical Inspector handles this, not the Idaho DOPL Plumbing Bureau.	
Mechanical / HVAC	\$5.10 per installation	Not published — contact the department	For equipment change-outs where the gas line already exists, only a final inspection is required; a new gas line requires both a gas pressure/rough-in inspection and a final.	
Roofing / Re-roof	\$30.18 base tier — full schedule at source	10–20 business days	Residential re-roofing permit fees are capped at a maximum of \$110.00 regardless of valuation, per the City's Fee Schedule.	
Solar PV	\$5.85 per each electrical service	10–10 business days	A separate Net Metering and Small Generation Interconnection Agreement with Idaho Falls Power (the City's own municipal electric utility) is required in addition to the building/electrical permit — this is distinct from most jurisdictions where the utility is a separate private company.	

Good to know

- The City of Idaho Falls transitioned from eTrakit Online to Cityworks permitting software on April 1, 2024. Everyone needs a new Cityworks account; using the same email address as a prior eTrakit account links historical permits/projects. Email addresses on Cityworks accounts cannot be changed once set up.
- Idaho Falls self-administers its own Building Division (Community Development Services) with its own Chief Building Inspector, Chief Electrical Inspector, and Chief Plumbing/Mechanical Inspector — the City issues and inspects building, electrical, plumbing, and mechanical permits directly. This differs from Idaho jurisdictions where DOPL (the state Division of Occupational and Professional Licenses) directly administers trade permitting; verify permit issuer before assuming a DOPL pathway applies elsewhere in Idaho.

Eagle

Ada County · City of Eagle Building Division

208-489-8760 · <https://www.cityofeagle.org/153/Building> · 582 permitted units/yr

Permit	Fee	Review timeline	Tip
Residential Building (New Construction)	\$20,000 base tier — full schedule at source	30–42 business days	Plan review turnaround for single-family homes, ADUs, detached garages/shops, sheds, and additions is currently 6 weeks (published by Eagle Building Division). Revisions extend turnaround time beyond the 6-week target.
Residential Addition / Remodel	Not offered / not tracked for this city		
Electrical	\$130.00	1–5 business days	All electrical work in Eagle must comply with the 2023 NEC (NFPA 70), adopted via the Idaho Electrical Board.
Plumbing	\$20,000 base tier — full schedule at source	1–5 business days	Eagle uses the 2017 Idaho State Plumbing Code (ISPC — IAPMO), not the International Plumbing Code.
Mechanical / HVAC	\$65.00 base tier — full schedule at source	1–5 business days	Fireplace installations (two inspections) are \$130; standalone fireplace permit (gas or electric) is \$75.
Roofing / Re-roof	Not offered / not tracked for this city		
Solar PV	Not offered / not tracked for this city		

Good to know

- Plan review turnaround times are published on the Eagle Building Division page and are currently high-volume: residential (new SFR, ADU, garages, sheds, additions) = 6 weeks; commercial = 6–8 weeks. Revisions extend turnaround.
- All inspection requests must be submitted through the Eagle Contractor Portal (eagle_permit.portal.iworq.net) before 4:00 PM to receive an inspection the next business day. After 4:00 PM on Friday = following Tuesday. Weekend requests = following Tuesday.

Post Falls

Kootenai County · City of Post Falls Community Development Department, Building Division
(208) 773-8708 · <https://www.postfalls.gov/175/Building> · 376 permitted units/yr

Permit	Fee		Review timeline	Tip
Residential Building (New Construction)	\$96.83 base tier full schedule at source	— 10–10 business days	Apply online at the Community Development Portal (postfallsid.portal.opengov.com); the Guide for the Community Development Portal (PDF) walks through account setup and submittal.	
Residential Addition / Remodel	\$72.62 base tier full schedule at source	— 10–10 business days	Post Falls prices additions (\$72.62/sq ft), interior finish (\$20/sq ft), garages (\$37.72/sq ft), and decks (\$15–25/sq ft depending on cover/enclosure) separately from new-home living space (\$96.83/sq ft) — use the correct category on the Valuation Chart.	
Electrical	\$130.00	Not published — contact the department	New residential electrical fees scale by square footage: \$130 (up to 1,500 sq ft) through \$325 (3,501–4,500 sq ft), plus \$65/1,000 sq ft over 4,500.	
Plumbing	\$35.00	Not published — contact the department	Post Falls uses the 2017 Idaho State Plumbing Code (ISPC), a state-amended code distinct from both the Uniform Plumbing Code and International Plumbing Code — verify fixture and venting requirements against the ISPC.	
Mechanical / HVAC	\$18.00	Not published — contact the department	Residential ducted HVAC systems require ACCA Manual J & D heat-load calculations submitted with the Mechanical Permit Application, along with the Residential HVAC Review Form.	
Roofing / Re-roof	\$150.00 Flat Fee	10–20 business days	Post Falls' 'Severe' weathering classification (per the City's Current Adopted Codes and Design Criteria) triggers the IRC R905.1.2 Ice Shield underlayment requirement for roofing work.	
Solar PV	\$23.50 base tier full schedule at source	— 10–10 business days	Post Falls has not published a dedicated Solar/PV permit application, checklist, or fee line — solar installations are processed as a combined Building Permit (structural) plus Electrical Permit (wiring/interconnection) under the City's general fee schedules.	

Good to know

- Post Falls is administratively distinct from Kootenai County: the City of Post Falls Building Division issues and inspects building, electrical, plumbing, and mechanical permits within its own city limits via the Community Development Portal (postfallsid.portal.opengov.com); unincorporated Kootenai County uses the separate Kootenai County Building Department.
- Two historical city domains exist online: postfallsidaho.org (legacy/stale, some pages no longer resolve or serve outdated content) and postfalls.gov (current, active site as of this review). Always prefer postfalls.gov links; postfallsidaho.org content should be treated as potentially stale.

Pocatello

Bannock County · City of Pocatello Building Department (Development Services Center)
(208) 234-6158 · <https://pocatello.gov/163/Building> · 301 permitted units/yr

Permit	Fee		Review timeline	Tip
Residential Building (New Construction)	\$23.50 base tier full schedule at source	— 10–10 business days	Residential plan review has a minimum 10-working-day timeline once a complete application is submitted; submitting any new or revised piece of information restarts the full 10-working-day clock, per the City's Residential Development Application.	
Residential Addition / Remodel	\$23.50 base tier full schedule at source	— 10–10 business days	The same minimum 10-working-day plan review timeline applies to additions/remodels as to new construction; the clock restarts with any new information submitted.	
Electrical	\$130	10–20 business days	Electrical, plumbing, and mechanical contractors must show a copy of their State of Idaho (DOPL) license; the City does not issue separate city trade licenses for these three trades (unlike Building, Sign, Class A-1/A-2/B contractor licenses, which the City itself licenses).	
Plumbing	\$130	10–20 business days	Sewer escrow fees may apply for new residential construction per the Residential Plan Checklist.	
Mechanical / HVAC	\$130	10–20 business days	Manual D, J, and S calculations must be submitted with new residential building plans prior to plan review, per the City's Oct. 1, 2021 policy notice.	
Roofing / Re-roof	\$65	10–10 business days	No dedicated re-roof-specific review-timeline was found published separately from the general permit process; re-roof permits are issued under the same Chapter 15.04 (Building Code) 'Permits Required' provision that governs all building-permit-regulated work (including 'erection, construction, ... repair, ... demolition' per Pocatello Municipal Code 15.04.010), so the City's governing minimum 10-working-day plan review timeline for building-permit-regulated work applies.	
Solar PV	\$65	10–20 business days	Pocatello pursued SolSmart silver designation specifically to streamline solar permitting; a dedicated online Solar Permit Application with a solar-specific checklist is available, distinct from the general electrical permit.	

Good to know

- The City of Pocatello (pocatello.gov) is a distinct, newer .gov domain from the legacy CivicPlus site at pocatello.us; the Building Department, permit fees, and eTRAKiT links all live on pocatello.gov. Building permit applications route to the eTRAKiT portal at poca.csqrccloud.com/community-ettrakit/ (the pocatello.gov/etrakit/ link redirects there).
- Pocatello runs its own city Building Department and issues its own construction permits — it is not a DOPL-administered jurisdiction. DOPL's role for Pocatello is limited to statewide contractor/tradesperson licensing (electrical, mechanical, plumbing); the City requires those trade contractors to present a copy of their state DOPL license rather than issuing separate city trade licenses for those three disciplines. The City does directly issue its own Building (Class A-1/A-2/B), Sign Contractor, and other business/activity licenses.
